LANSORB UV-783

Light Stabilizer 783

CAS No. 71878-19-8；65447-77-0

Specifications:

Tests	Specification
Appearance	Light yellow particles or white powder
Assay	≥99.0%
Color	≤120
Loss on drying	≤0.50%
Ash	≤0.10%
Softening point	50~130℃
Light transmittance (425nm)	≥90.0%
Light transmittance (450nm)	≥91.5%
Light transmittance (500nm)	≥93.0%

Package: 25Kg/Carton

Application:

- The product is suitable for polyolefin materials, particularly effective in PP fiber, tape, thin or thick LLDPE, LDPE products. It can effectively prolong product service life.

Storage: Keep container tightly closed in a dry and well-ventilated place.

Recommend Shelf Life: 12 months.
