

YAC-P23

Phenyltriethoxysilane

CAS No. 780-69-8

Specifications:

Tests	Specification
Appearance	Colorless transparent liquid
Assay	$\geq 98.0\%$
Color (Pt-Co)	≤ 30
Refractive Index (nD ²⁵)	1.4550~1.4750

Package: 200Kg/Drum or 1000Kg/ IBC

Application:

- It is mainly used as a crosslinking agent for room-temperature vulcanized silicone rubber, a raw material for the preparation of phenyl silicone oil and silicone resin, and can also be used for hydrophobic treatment of inorganic filler surfaces to improve their dispersibility in polymers.

Storage: Keep container tightly closed in a dry and well-ventilated place. Keep away from heat and sources of ignition.

Recommend Shelf Life: 12 months.
